Related Mentions

- Final Project - The AI Forecasting project consists of two parts. In each, students will use AI tools to
- analyze a dataset and make predictions. The project is individual, and students will be evaluated on the
- accuracy of their predictions. We will provide detailed guidelines later in the course. The goal is to give
- students a hands-on first experience with data analysis and a chance to apply the concepts of the
- class in a
- real-world setting.
