Related Mentions

- Homework - We will have 12 graded homework assignments. Each graded homework will be completed
- via Brightspace and will be worth 1 point (up to the limit of 10 homework points in the semester). The
- goal of each homework is to check your understanding of the material each week.
- Each homework will usually be posted on Brightspace on a Monday evening or Tuesday morning, then it
- will be due on the Friday at 11:59pm. The idea is that we will cover the material during the week, and
- you will finish the homework by the end of the week.
- A student receives 1 point for the homework if the homework is submitted on time (before the due date)
- and the student correctly answered at least half of the questions on the homework. A homework that is
- submitted late or a homework that does not correctly answer at least half of the questions receives zero
- points. The homework must be turned in electronically via Brightspace before the due date. Any assign-
- ment turned in late, even if by only a few minutes, will not receive the point.

- Note that a student may receive at most 10 homework points in the semester, even if they correctly submit

- all 12 homework assignments. This means that 2 homework assignments are dropped. The goal of this
- policy is to allow students some flexibility. Sometimes, for different reasons, a student is not able to sub-
- mit a correctly answered homework on time. In this case, the student can still earn the maximum of 10
- homework points in the semester by correctly submitting the other homework assignments on time.
- Due: 2026-09-25 | Week 5: Sep.21/23 - Complete the Chapter 3 - Part II home- work on Brightspace (due Sep.25)
