- Paper 15%
- Presentation 10%
- Self & Peer Evaluation 2%
- Final Exam 25%
- Total 100%

- Final grades represent how you perform in the class relative to other students. Three items are considered
- when assigning final grades:
 - 1. your weighted score as a percentage of the available points for all assignments (the points you receive
 - divided by the number of points possible).
 - 2. the overall average percentage score within the class.
 - 3. your ranking among all students in the class.
- Participation
- Attendance Policy. Attendance is critical in this course. All missed classes will be noted. The policy on missed
 - classes is to allow each student two (2) absences, no questions asked, no penalty. Missing three or more classes
 - without a reasonable conversation with the professor will reduce your participation grade and final course
 - grade. Students with an excessive number of absences are at risk of failing the course. Only official
 - university engagements, such as officially scheduled USC Marshall sponsored case competitions and sports
 - events, will be accepted as exceptions to this policy. Job interviews are not excused so choose your absences
 - carefully. Habitual lateness and leaving class early, for whatever reason, will be noted as evidence of low
 - course commitment and penalized. Simply put, you cannot learn from our class discussions, and your
 - classmates cannot learn from you, if you are not present.
- Participation. Your participation grade will be based on consistent and effective contributions to class
- discussions and participation in in-class assignments and activities. You are expected to attend every class
- session having read, thought about, and prepared any assigned material. You should also be prepared to share
- your ideas and to actively listen to and interpret the ideas presented by others. Effective engagement with your
- team is also an important component of your participation grade.
- 3
- 2. An issue analysis of an issue/topic connected to the themes in the course and of importance to multiple
 - organizations; this issue may be inspired by something in the headlines of the business press or
 - something in your own experience. You will need to examine the nature of this issue and analyze in
 - detail how different companies have addressed and/or experienced the issue. You will identify best

- practices and make recommendations based on your study using archival sources (i.e. library research).
- Your "deliverable" for this project has five components:
 1. Project proposal with team contract
 2. Detailed outline of paper
 3. Project paper
 4. In-class presentation followed by Q&A
 5. Self & peer evaluation feedback (online assessment explained in class).
- Submitted assignments should use 12-point, Times New Roman font, double-spaced, with 1-inch margins
- on all sides.
- Feedback helps you learn and improve your performance as well as the quality of your output as a team.
- As part of the team project, you will practice and develop skills in providing and receiving effective feedback through in-class exercises and a more formal peer evaluation survey. The criteria for the peer
- evaluation will be discussed in class and posted to Brightspace.
- The final grade for this project is based on four components: the project proposal, the project paper, the
- presentation, and the self & peer evaluation. The team project will be evaluated based on the quality of the
- analysis, the appropriate use of course concepts, principles and frameworks, the logic and substantiation of
- conclusions, the clarity, organization and style of the writing and the quality of your class presentation. The
- detailed outline of the paper is not graded but you will receive feedback to help improve the final paper.
- Further instructions and grading rubrics will be posted to Brightspace.
- Grades for individual student contributions to the team project are assigned by your Professor, based on
- my observations of the team's working dynamics, my assessment of the team project quality, and thoughtful
- consideration of the information provided through your peer evaluations.
- Final Exam
- The final exam will take place during the final examination period on the date and time assigned by the
- University. It will consist of multiple-choice, true/false and/or short-essay questions. Please refer to the
- exam study guide posted to Brightspace for information on the material covered. If you have another final

- exam scheduled on the same date and time as the final exam for this course, you must let me know about
- the conflict at least 2 weeks prior to the final exam. I expect this exam to be administered in person.
- Online Class Expectations - IF we move to an online format
- 1. Class attendance and participation are important to develop a coherent view of the materials covered in
- the course. Because BUAD 304 is highly interactive and experiential, attendance and active
- participation are required in the event of synchronous Zoom class sessions.
- a. First, please note that BUAD 304 in Fall 2026 is a residential class. All students are expected to be
- physically present in the classroom. In the event you cannot do so, you must contact the professor
- prior to classes beginning. This course is designed for in-person engagement, and OSAS
- Approved/Online only is not allowed at this time.
- 2. In the event we meet online for Zoom sessions, the following netiquette is expected, as if you were
- in
- a physical classroom.
- a. Please DO:
- i. Log into class early or promptly.
- ii. Arrange to attend class where there is a reliable internet connection and without distractions.
