- Self & Peer Evaluation 2%
- Final Exam 25%
- Total 100%
- Final grades represent how you perform in the class relative to other students. Three items are considered

- when assigning final grades:
- 1. your weighted score as a percentage of the available points for all assignments (the points you receive
- divided by the number of points possible).
- 2. the overall average percentage score within the class.
- 3. your ranking among all students in the class.
- Participation
- Attendance Policy. Attendance is critical in this course. All missed classes will be noted. The policy on missed
- classes is to allow each student two (2) absences, no questions asked, no penalty. Missing three or more classes
- without a reasonable conversation with the professor will reduce your participation grade and final
- grade. Students with an excessive number of absences are at risk of failing the course. Only official
- university engagements, such as officially scheduled USC Marshall sponsored case competitions and sports
- events, will be accepted as exceptions to this policy. Job interviews are not excused so choose your absences
- carefully. Habitual lateness and leaving class early, for whatever reason, will be noted as evidence of low
- course commitment and penalized. Simply put, you cannot learn from our class discussions, and your
- classmates cannot learn from you, if you are not present.
- Participation. Your participation grade will be based on consistent and effective contributions to class
- discussions and participation in in-class assignments and activities. You are expected to attend every
- class
- session having read, thought about, and prepared any assigned material. You should also be
- prepared to share
- your ideas and to actively listen to and interpret the ideas presented by others. Effective engagement
- with your
- team is also an important component of your participation grade.
- 3
- 2. An issue analysis of an issue/topic connected to the themes in the course and of importance to multiple
- organizations; this issue may be inspired by something in the headlines of the business press or
- something in your own experience. You will need to examine the nature of this issue and analyze in
- detail how different companies have addressed and/or experienced the issue. You will identify best
- practices and make recommendations based on your study using archival sources (i.e. library
- research).
- Your "deliverable" for this project has five components:

- 1. Project proposal with team contract
- 2. Detailed outline of paper
- 3. Project paper
- 4. In-class presentation followed by Q&A
- 5. Self & peer evaluation feedback (online assessment explained in class).
- Submitted assignments should use 12-point, Times New Roman font, double-spaced, with 1-inch margins
- on all sides.
- Feedback helps you learn and improve your performance as well as the quality of your output as a team.
- As part of the team project, you will practice and develop skills in providing and receiving effective
- feedback through in-class exercises and a more formal peer evaluation survey. The criteria for the peer
- evaluation will be discussed in class and posted to Brightspace.
- The final grade for this project is based on four components: the project proposal, the project paper, the
- presentation, and the self & peer evaluation. The team project will be evaluated based on the quality of the
- analysis, the appropriate use of course concepts, principles and frameworks, the logic and substantiation of
- conclusions, the clarity, organization and style of the writing and the quality of your class presentation. The
- detailed outline of the paper is not graded but you will receive feedback to help improve the final paper.
- Further instructions and grading rubrics will be posted to Brightspace.
- Grades for individual student contributions to the team project are assigned by your Professor, based on
- my observations of the team's working dynamics, my assessment of the team project quality, and thoughtful
- consideration of the information provided through your peer evaluations.
- Final Exam
- The final exam will take place during the final examination period on the date and time assigned by the
- University. It will consist of multiple-choice, true/false and/or short-essay questions. Please refer to the
- exam study guide posted to Brightspace for information on the material covered. If you have another final
- exam scheduled on the same date and time as the final exam for this course, you must let me know about
- the conflict at least 2 weeks prior to the final exam. I expect this exam to be administered in person.
- Online Class Expectations - IF we move to an online format

- 1. Class attendance and participation are important to develop a coherent view of the materials covered in
- the course. Because BUAD 304 is highly interactive and experiential, attendance and active
- participation are required in the event of synchronous Zoom class sessions.
- a. First, please note that BUAD 304 in Fall 2026 is a residential class. All students are expected to be
- physically present in the classroom. In the event you cannot do so, you must contact the professor
- prior to classes beginning. This course is designed for in-person engagement, and OSAS
- Approved/Online only is not allowed at this time.
- 2. In the event we meet online for Zoom sessions, the following netiquette is expected, as if you were
- in
- a physical classroom.
- a. Please DO:
- i. Log into class early or promptly.
- ii. Arrange to attend class where there is a reliable internet connection and without distractions.

Full Syllabus Extract

2. An issue analysis of an issue/topic connected to the themes in the course and of importance to multiple organizations; this issue may be inspired by something in the headlines of the business press or something in your own experience. You will need to examine the nature of this issue and analyze in detail how different companies have addressed and/or experienced the issue. You will identify best practices and make recommendations based on your study using archival sources (i.e. library research). Your "deliverable" for this project has five components: 1. Project proposal with team contract 2. Detailed outline of paper 3. Project paper 4. In-class presentation followed by Q&A 5. Self & peer evaluation feedback (online assessment explained in class). Submitted assignments should use 12-point, Times New Roman font, double-spaced, with 1-inch margins on all sides. Feedback helps you learn and improve your performance as well as the quality of your output as a team. As part of the team project, you will practice and develop skills in providing and receiving effective feedback through in-class exercises and a more formal peer evaluation survey. The criteria for the peer evaluation will be discussed in class and posted to Brightspace. The final grade for this project is based on four components: the project proposal, the project paper, the presentation, and the self & peer evaluation. The team project will be evaluated based on the quality of the analysis, the appropriate use of course concepts, principles and frameworks, the logic and substantiation of conclusions, the clarity, organization and style of the writing and the quality of your class presentation. The detailed outline of the paper is not graded but you will receive feedback to help improve the final paper. Further instructions and grading rubrics will be posted to Brightspace. Grades for individual student contributions to the team project are assigned by your Professor, based on my observations of the team's working dynamics, my assessment of the team project quality, and thoughtful consideration of the information provided through your peer evaluations. Final Exam The final exam will take place during the final examination period on the date and time assigned by the University. It will consist of multiple-choice, true/false and/or short-essay questions. Please refer to the exam study guide posted to Brightspace for information on the material covered. If you have another final exam scheduled on the same date and time as the final exam for this course, you must let me know about the conflict at least 2 weeks prior to the final exam. I expect this exam to be administered in person. Online Class Expectations - IF we move to an online format 1.
